Subject: Microsoft Settlement

To whom it may concern,

I'm writing to express my disappointment with the proposed Microsoft Settlement currently under consideration. There are many reasons for this, which will be well documented in the formal, open letters I've seen submitted for consideration. The final analysis leads one to conclude that really these proposed remedies will not substantively change Microsoft's behavior and business practices in any such way as to mitigate the effects of these behaviors in the future.

Moreover, there is no consequence or penalty for Microsoft's proven wrong doings beyond an attempt to modify Microsoft's future behaviors.

I strongly urge this settlement proposition be denied.

Sincerely,
-Robert Nesius
